

iWhite Instant Mouthwash:

1- Brand name

iWhite Instant Mouthwash

2- Description & Properties

The mouthwash with “triple-action” ingredients for daily use.

- Shake to activate!
- *Instant* whitening effect with *one use*
- *Deep* teeth brightening with *daily use*
- Immediate shining
- Blue Covarine in the formula
- Fluoride in the formula to strengthen the teeth
- Fresh taste
- No alcohol

Shake vigorously before use to activate the triple-action ingredients:

Action 1:

Immediately whiter effect with blue covarine. iWhite Instant whitening mouthwash contains blue Covarine, which places an ultrathin film over the surface of the teeth while rinsing. Blue Covarine alters the way in which light reflects on the teeth, giving a visibly whiter appearance immediately.

Action 2:

Hexametaphosphate removes and prevents plaque. Clinical studies show that this active ingredient is ideal for removing plaque. It also helps to prevent new plaque from forming, resulting in a more intense and bright smile.

Action 3:

Active whitening based on PAP for daily use.

PAP is a new whitening action substance for effective and deep cleaning of the teeth. A 30-day clinical study shows that PAP is 100% safe for tooth enamel and gums. It works exclusively on the teeth stain itself, leading to clearly whiter teeth. PAP also suppresses the growth of bacteria in the mouth, giving plaque no chance.

iWhite Instant Whitening mouthwash also contains other active ingredients, such as fluoride, which strengthens and demineralizes your teeth. For an intensely shining smile that is strong as iron.

3- Indication

- Instant whitening and deep cleaning of the teeth.
- Removing and preventing plaque by suppressing the growth of bacteria

4- Warnings and precautions

- Do not swallow mouthwash.
- Not for use by children under the age of 12 years old.
- Avoid contact with the eyes.
- Must only be used as directed.
- Contains Sodium Fluoride.
- Whitens natural teeth only.
- Discontinue treatment if you experience pain or excessive sensitivity.

- Use of the product is inadvisable if you have allergic reactions to one of the ingredients.

5- Instruction for use

For adults and children over 12 years old. Use mouthwash twice a day after brushing for optimal results. Rinse the mouth well for 30 seconds between the teeth and spit it out. Do not swallow. After rinsing, wait 30 minutes before eating or drinking.

6- Storage condition

- Store in a cool dry place between 2°C and 25°C
- Keep away from heat and direct sunlight.
- Keep out of reach of children.

7- Packaging

Bottle of liquid, 500 ml

8- License Holder

SYLPHAR/ Belgium

9- Marketing Authorization Holder in IRAN
